## SOFT SKILLS

- Communication
- Proactiveness
- Problem solving
- Team player

## LANGUAGES

- English
- German

## HOBBIES

- Basketball
- Travelling
- Professional Networking

## PROFILE

A passionate engineering student aspiring for an internship opportunity. I am eager to expand my knowledge and enhance my skills in an international environment. Actively looking for possibilities to apply my technical abilities and contribute to innovative projects.

## PROJECTS

### Portfolio website

Techstack used: Next.js and tailwindcss

- Developed a personal portfolio website to showcase skills and experience.

### landing Page for a finance company.

Techstack used: React.js and tailwind

- Developed a responsive landing page for a hypothetical finance company.
- Website provides insights on: features, pricing, newsletter section, etc.

### College Ticketing App

Techstack used: nextjs, tailwindcss , next-authentication, mongoDB and Prisma

- Engineered a student complaint ticketing system through a responsive web application, improving communication channels and reducing complaint resolution time by 50%, significantly enhancing student satisfaction and administrative efficiency.
- Was responsible for building front-end components such as Navbar, Footer, Login & Signup pages, Ticket page and Feedback form.
